

# ENVIRONMENTAL POLICY STATEMENT

Fidelity National Information Services, Inc. and its subsidiaries (collectively, “Company” or “FIS”) provides technology and services to help businesses and communities thrive by advancing the way the world pays, banks and invests. We recognize our responsibility to assess our impact on the environment and are committed to growing our company in a sustainable, responsible manner. FIS established this environmental policy statement to be consistent with the mission and values of our organization.

## Our commitment

FIS recognizes that our planet needs to be a sustainable home for current and future generations. The Company is committed to protecting the environment, including by preventing pollution. FIS strives to do this by:

- Minimizing the Company’s environmental impact through initiatives aimed at increasing energy efficiency and supporting waste reduction practices and recycling programs.
- Operating in compliance with Company environmental programs, applicable environmental laws and regulations, and voluntary agreements into which the Company enters.
- Promoting environmental awareness among colleagues, clients and the communities in which FIS operates.
- Continually improving our programs, including setting objectives to improve environmental performance.
- Regularly reviewing and reporting our environmental performance to FIS leadership.
- Implementing an environmental management system at designated facilities consistent with the ISO 14001 Environmental Management System standard.
