

TAKING CARD PAYMENTS OVER THE PHONE HAS NEVER BEEN EASIER

Our Virtual Terminal is a quick and easy solution for you to take payments over the phone. Your staff can take phone payments from the office, or even at home.

Whether you have a store, website or offer mail order services, your customers will have the flexibility to pay remotely.

- ✓ **No joining fees**
- ✓ **Easy setup**
- ✓ **No need for additional hardware**
- ✓ **Maximize productivity with multiple users**
- ✓ **Be flexible in taking payments from a store, office or home**

All you need is a secure internet connection with a web browser and you're all set.

Features

Log in from your PC, laptop, or tablet anywhere there is a secure internet connection

Optional risk management services to help protect your business from fraud

Have multiple users on one account with no additional cost

Real-time reporting to keep track of payments

User-friendly interface

No technical setup required

"The Virtual Terminal is a fast and easy way to take payments. If you add the customer's email address, it will even send a receipt – something that we had to do manually as an extra task when using the machine. And for the first time, two or more people can be taking a payment at the same time. It's a vast improvement. Not only is it absolutely vital while we are all working in separate locations, but it's going to make life a whole lot easier when we're back in the office too."

- Hallgarten & Novum Wines
