

# CARD SUITE PRO

A seamless card-management app that empowers your cardholders

## An enhanced digital experience tool to guide financial decisions

Today, the acceleration of digital solutions and shifting consumer banking behaviors are changing the rules of the game. For this reason, financial institutions and their partners want to provide seamless, digital experiences to meet the needs of their cardholders.

The world is moving toward a digital era, and cardholders want solutions that will allow them to control everything from the palm of their hand. But without a digital-first card management app, you might be concerned that your fraud losses will continue to climb and your cardholders will leave you for a more contemporary institution.

## Introducing FIS Card Suite Pro

The FIS® Card Suite Pro provides a feature-rich, all-in-one application that attracts, retains and grows your customer base, all while giving your cardholders the power to seamlessly manage their financial card and payment set. Based on your financial institution's digital strategy, you can choose your delivery channel as SDK, which keeps your institution connected and allows for quick integrations and solution updates.

### Premier card app covering the full range of card-control capabilities

- **Manage:** Dispute transaction, digital reissuance, activate, report lost or stolen
- **Acquire:** Account sharing
- **Protect:** Dynamic CVV and PIN, visible transaction lists w/vendor logos, location-based control
- **Enrich:** Loyalty, insights, data enrichment, geolocation
- **Pay:** Embedding payments, loyalty, virtual cards, BNPL, Apple/Google Pay

# CARD SUITE PRO

## Empower your cardholders

FIS Card Suite Pro self-service credit- and debit-card controls are designed to seamlessly blend into the daily life of your cardholders.

The clean and simple UI allows for a quick login where your cardholders can view their spending analytics and transactions across multiple cards. You can use this card-management app to assist your cardholders in managing, acquiring, protecting, enriching and paying with their card portfolio.

Rather than just another banking app, think of it as an essential tool that will guide your cardholder's future decisions.

**Easy-to-use card management**

**Pocket-sized guide**

**Modernized cardholder features**

**Range of delivery channels**

# Connect cardholders to an all-in-one, enhanced digital experience

## Easy-to-use card management

Single-glance monitoring and easy login make it second nature to the user, while consistent monitoring helps users quickly identify and report fraudulent activity.

## Modernized cardholder features

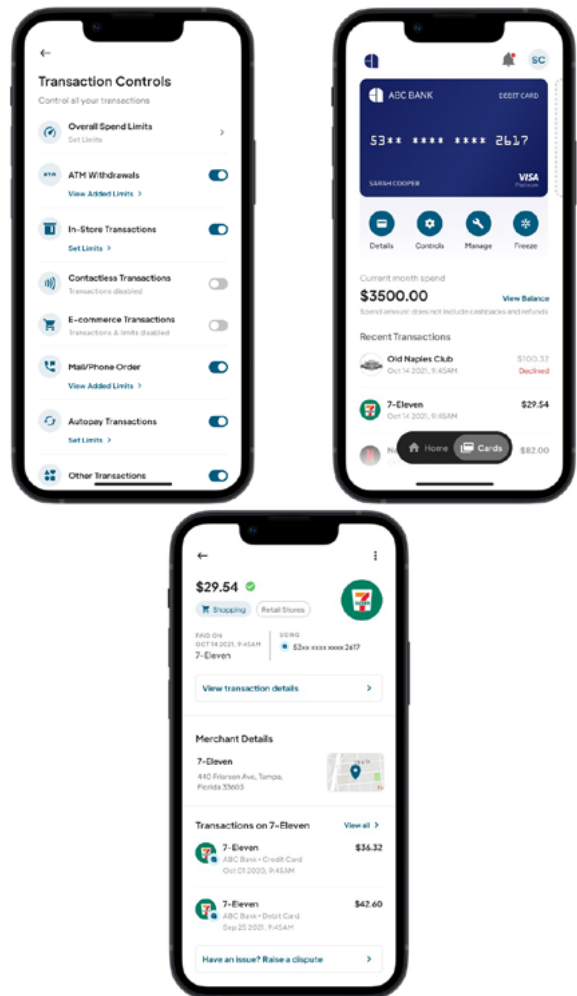

Full range of card-control capabilities, including the ability to conveniently pay, analyze/control spending and prevent fraud. Set travel locations, add merchant category whitelists/logos, share cards, activate/issue cards and view loyalty programs.

## Pocket-sized financial guide

A comprehensive digital guide to financial health through personal insights and alerts into how the user is spending. Mobile ease-of-use and feature practicality is designed to increase app usage and customer retention.

## Range of delivery channels

Available in channels that meet a variety of needs – standalone application, FIS Mobile, SDKs and white labeling.
